ACTINIDIA ARGUTA 'GENEVA' (FEMALE)

Common Name: Hardy Kiwi – Pot Size: 2 g

Price: \$19.00

Stock: N/A

Who doesn't like to grow edible fruit, especially one packed with Vitamin C. 'Geneva' is a female kiwi vine tested at Geneva New York Experimental Station. Produces delicious, smooth skinned, medium-sized fruit. Should be pollinated by male ('Meader'). Bearing age: 3-4 years after planting. Needs to be grown on support, trellis, arbor, or other support. Flowers in May.
 Mature size: 10-20'; Light: Sun; Soil: Moist

ACTINIDIA DELICIOSA

Common Name: Fuzzy Kiwi (male)

Pot Size: 1 g

Price: \$29.00

Stock: N/A

Tag: [✕Edible](#)

Pollinator for many Fuzzy Kiwi in the genus, blooms in May. Plant can take a heavy pruning in early to mid summer.

Current Height: 1' (vine) Mature size: 10-20'; Light: Sun; Soil: Moist

ADINA RUBELLA

Common Name: Chinese Buttonbush

Pot Size: 1 g

Price: \$19.00

Stock: N/A

Tags: [✕ Pollinator Friendly](#), [✕ Wet Soil](#), [✕Fragrant](#)

Deciduous shrub grown for its unique blooms and beautiful foliage. Similar to our native Buttonbush (*Cephalanthus*) with a shorter mature height. Dark green, glossy leaves rest on red stems and flowers. Also similar to our native Buttonbush, flower cover the entire shrub starting late June to early July.

Current Height: .5-1' Mature size: 8-10'; Light: Sun/Part Sun; Soil: Moist/Wet

AESCULUS PARVIFLORA

Common Name: Bottlebrush Buckeye

Pot Size: 2 g

A native, shrubby bottlebrush well suited to sun or shade. Slowly spreading, eventually forming large bush with white, spike-like flower clusters in late June. Lepidoptera use plant as larval (caterpillar) food source.

Current Height: 3-4' **Mature size:** 6-12';
Light: Sun/Shade; **Soil:** Moist

Price: \$39.00

Stock: N/A

Tags: [☒ Fall Foliage](#), [☒ Pollinator Friendly](#), [☒ Staff Favorite](#)

AESCULUS PARVIFLORA V. SEROTINA

Common Name: Bottlebrush Buckeye

Pot Size: 1 g

A native, shrubby bottlebrush well suited to sun or shade. Slowly spreading, eventually forming large bush with white, spike-like flower clusters in late June, a few weeks later than species type, plant the two together to extend flowering appearance! Lepidoptera use plant as larval (caterpillar) food source.

Current Height: 0.5' **Mature size:** 6-12';
Light: Sun/Shade; **Soil:** Moist

Price: \$19.00

AESCULUS PAVIA

Common Name: Red Buckeye

Pot Size: 3 g

Typically a large shrub, red buckeye can mature into a small tree. Panicles of coral-red flowers decorate this shrub as leaves emerge in May and continue for 2-3 weeks as foliage matures. Red flowers attract hummingbirds. Leaves are resistant to diseases that trouble some other buckeyes. Native from Virginia west to Illinois, south to Florida and Texas. PHS Gold Medal Plant Award winner.

Current Height: 1-2'; **Mature Size:** 12-15';
Light: Sun/Part Sun; **Soil:** Moist

ALNUS SERRULATA

Common Name: Smooth Alder, Hazel Alder

Pot Size: 2 g

A multiple-trunked, suckering native shrub in the birch (Betula) family, with a picturesque habit and shiny gray-brown bark. Summer foliage is a glossy dark green, tinged with red in fall. Flowers are purple catkins; males have attractive drooping clusters, and females upright smaller clusters. Catkins are eaten by many birds and dense branching provides cover and nesting habitat as well.

Current Height: 3-4' **Mature size:** 15-20'
Light: Sun/Part Shade **Soil:** Moist/Wet

Price: \$39.00

Tags: [☒ Attracts Birds](#), [☒ Fall Foliage](#)

AMELANCHIER ALNIFOLIA 'SMOKEY'

Common Name: Smokey Serviceberry

Pot Size: 2 g

This cultivar is sought after for its uncharacteristically large, deep blue fruits and excellent ornamental qualities in the landscape. This native multi-stemmed shrub is sometimes trained to look like a small tree. Beautiful white blossoms cover the tree in early spring, resulting in a strong fruit set later in the season. You won't want to miss this plant in the late season either when it shows off bright orange and crimson foliage. This is the one you want if you are looking for a berry harvest.

Current Height: 1-2'; **Mature size:** 10'-12';
Light: Sun/Part Sun; **Soil:** Moist

Price: \$29.00

ARCTOSTAPHYLOS UVA-URSI 'MASSACHUSETTS'

Common Name: Common Bearberry

Pot Size: 1 g

This Ericaceous shrub produces attractive white, bell-shaped flowers tinged with pink. Low growing habit makes this plant a suitable groundcover; 'Massachusetts' produces blooms and berries more prolifically than straight species and with higher disease resistance. Berries ripen August to September and while considered edible, these berries are likely best enjoyed by birds and mammals, which love the fruits.

CALYCANTHUS XRAULSTONII 'HARTLAGE WINE'

Common Name: Hybrid Sweetshrub

Pot Size: 3 g

Maroon red flower typical of the species albeit with a wonderfully aromatic fragrance, some say spiced apples. Cross between *C. chinensis* and *C. floridus*. Upright rounded habit with leaves that turn a buttery yellow in autumn.

Current Height: XX' **Mature size:** 8-10'; **Light:** Sun/Partial Shade; **Soil:** Moist

Price: \$59.00

Stock: N/A

Tags: [☒ Black Walnut Resistant](#), [☒ Deer Resistant](#), [☒ Fall Foliage](#), [☒ Fragrant](#)

CAMELLIA JAPONICA 'BLACK TIE'

Common Name: Japanese Camellia

Pot Size: 3 g

Stunning double red flowers open in beautifully symmetrical bloom. Smaller blooms decorate the rich evergreen foliage. Flowers in very early spring. Upright, dense habit. Introduced in the 1975.

Current Height: 2-3'; **Mature size:** 8'; **Light:** Part Sun; **Soil:** Moist

Price: \$49.00

Stock: N/A

CAMELLIA JAPONICA 'MAN SIZE'

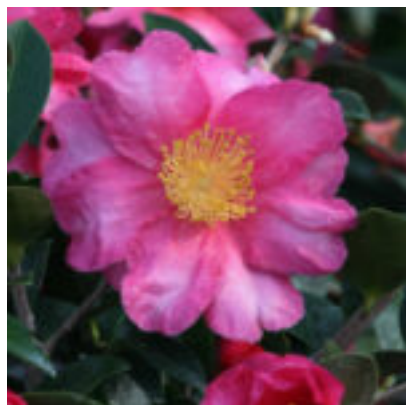

Common Name: Japanese Camellia

Price: \$49.00
Stock: N/A

Pot Size: 3 g

Beautiful creamy white flowers with puffed center. Characteristic glossy, deep evergreen foliage.

Current Height: 2-3' **Mature size:** 10-15';
Light: Part Sun; **Soil:** Moist

CAMELLIA JAPONICA 'SHISHI GASHIRA'

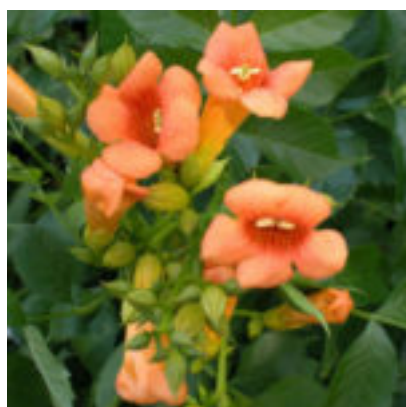

Common Name: Japanese Camellia

Price: \$49.00
Stock: N/A

Pot Size: 3 g

Hot pink, semi-double flowers on characteristic glossy evergreen foliage. Small plant is great for a low-growing hedge or accent in middle to back of landscape border.

Current Height: 1-2'; **Mature size:** 4-5';
Light: Part Sun; **Soil:** Moist

CAMPSIS 'INDIAN SUMMER'

Common Name: Trumpet Vine

Price: \$29.00
Stock: N/A

Pot Size: 1 g

This cultivar of Trumpet Vine bears showy, exotic apricot trumpet-shaped flowers with deeper orange markings, in contrast to lush green leaves. Fast growing, it will quickly cover a wall or fence.

Current Height: 1-2' (Vine) **Mature Size:** 8-10' (Vine); **Light:** Sun; **Soil:** Moist

CARPINUS CAROLINIANA WISCONSIN RED™

Common Name: Musclemwood

Pot Size: 2 g

Seedling strain developed over many years by Mike Yanny of Johnson's Nursery in Wisconsin for its improved orange-red autumn color. Versatile, tough, widely adaptable small native tree with a dense canopy that tolerates shady understory of woodlands or the poor compacted soils of the urban landscape. Attractive, smooth grey bark; fruits serve as a food source for wildlife.

Current Height: 2-4'; **Mature size:** 15-20';
Light: Sun/Shade; **Soil:** Dry/Moist; **Cultivar:**
 'My Select Strain'

Price: \$39.00

CERCIS CHINENSIS 'SHIROBANA'

Common Name: Chinese Redbud

Price: \$29.00
Stock: N/A

Pot Size: 1 g

Upright, multi-stemmed shrub with a compact growth habit. Tiny, white, pea-like flowers bloom profusely on the stems and branches for 2-3 weeks in early spring (March-April) before the foliage emerges.

Current Height: 1' **Mature size:** 6-12'; **Light:** Sun/Part Sun; **Soil:** Dry/Moist

CHAENOMELES SPECIOSA DOUBLE TAKE® PEACH

Common Name: Flowering Quince

Price: \$29.00
Stock: N/A
Tag: [☑ Drought Tolerant](#)

Pot Size: 1 g

Add this double flowering quince to your garden for a pop of early spring color. Deep peach/salmon tones provide a great backdrop to other bulb displays. Forms a slowly expanding mound that needs very little pruning. Flowers open in March on thornless branches. Does not produce fruit.

Current Height: 1-2' **Mature size:** 4-5';
Light: Sun/Partial sun; **Soil:** Dry/Moist
Cultivar: 'NCCS4'

CHAENOMELES SPECIOSA DOUBLE TAKE® SCARLET STORM

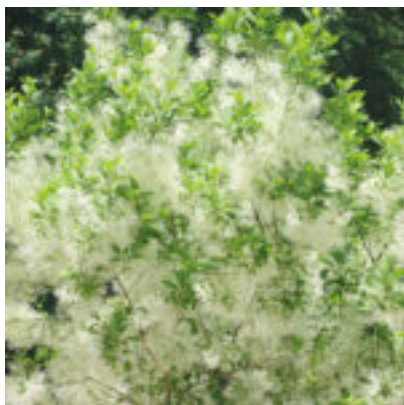

Common Name: Flowering Quince

Price: \$29.00
Stock: N/A
Tags: [☑ Deer Resistant](#), [☑ Drought Tolerant](#)

Pot Size: 1 g

Double flowered quince resembles miniature rose flowers. The 2-2.5" large red, double flowers open in March. Thornless and fruitless, drought tolerant once established. Mature spread: 3-4'

Current Height: 2.5' **Mature size:** 4-6';
Light: Sun/Part Sun; **Soil:** Dry/Moist

CHIONANTHUS VIRGINICUS

Common Name: Fringetree

Female plants produce grape-sized purple fruit in fall. All plants produce frothy clouds of fragrant white flowers in spring and yellow fall color. Great selection for small gardens. Source for food and nesting material for birds.

Current Height: 1-4' **Mature size:** 8-12';
Light: Sun/Shade; **Soil:** Moist

ILEX OAK LEAF™

Common Name: Oak Leaf Holly

Price: \$39.00

Pot Size: 3 g

Stock: N/A

A chance seedling off of the well known 'Mary Nell', this variety of holly gets its name from its leaf, which looks strikingly similar to our native scarlet oak. Evergreen foliage starts out purplish green and the fades to a medium green with light edges. Orange red fruits will be produced without the need for a male cultivar.

Current Height: 2-3'; **Mature Size:** 15-20';
Light: Sun; **Soil:** Dry/Moist **Cultivar:** 'Conaf'

ILEX GLABRA 'DENSEA'

Common Name: Inkberry Holly

Price: \$39.00

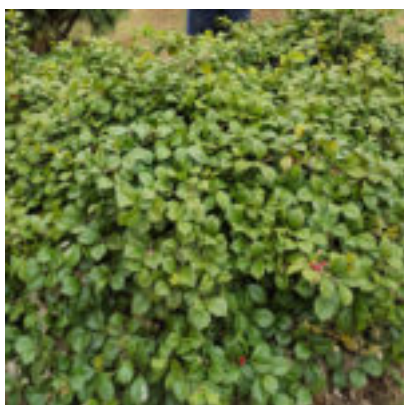

Pot Size: 3 g

Stock: N/A

Tag: [☑ Wet Soil](#)

A female form and top performer in inkberries due to compact habit, ease of cultivation, site adaptability, and dark green foliage. Leaves are wider and rounder than 'Shamrock'. This native shrub is an important structural component in the garden for its evergreen nature and winter interest.

Current Height: 1-2' **Mature size:** 4'; **Light:** Sun/Part Sun; **Soil:** Moist/Wet

VACCINIUM 'CARA'S CHOICE'

Common Name: Blueberry

Pot Size: 2 g

A highbush blueberry selected for improved flavor and firmness first made by A.D. Draper of Beltsville, MD. This is a mid-season berry producer. New Jersey Experimental Station says, "the fruit of 'Cara's Choice' fruit is medium sized, light blue, with small, dry scars, and excellent firmness. 'Cara's Choice' fruit is very sweet, with balanced acidity, and a superior flavor that is both complex and aromatic."

Current Height: 2-3' **Mature size:** 4-5';
Light: Sun/Part Sun; **Soil:** Moist/Wet

VIBURNUM MACROCEPHALUM (STERILE)

**Common Name: Chinese Snowball
Viburnum**

Price: \$49.00
 Stock: N/A
 Tag: [☑ Fall Foliage](#)

Pot Size: 3 g

The largest flowers of all snowball viburnum, they emerge green then quickly turn white in early spring. Dark green leaves line the vase like form that will turn shades of red in the fall.

**Current Height: 3-4' Mature Size: 6-15';
 Light: Sun/Partial Sun; Soil: Moist**

VIBURNUM NUDUM BRANDYWINE™

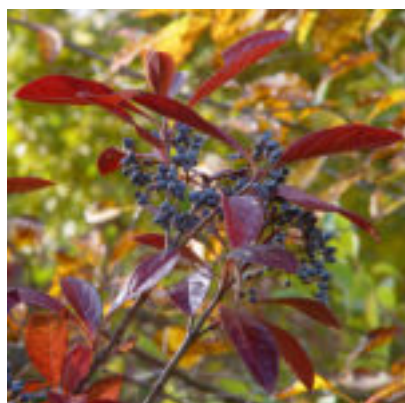

**Common Name: Possumhaw
Viburnum**

Price: \$29.00
 Stock: N/A
 Tags: [☑ Attracts Birds](#), [☑ Fall Foliage](#),
[☑ Native](#), [☑ Pollinator Friendly](#), [☑ Staff Favorite](#), [☑ Wet Soil](#)

Pot Size: 1 g

Creamy white flowers are just the start of this plant's appeal. Glossy foliage turns a glowing merlot in fall, and acts the perfect foil for fruit that starts pink, then turns dark blue. Essential plant if gardening for birds.

**Current Height: 2-3' Mature Size: 6-8';
 Light: Sun/Partial Sun; Soil: Moist/Wet
 Cultivar: 'Bulk'**

VIBURNUM NUDUM 'WINTERTHUR'

**Common Name: Possumhaw
Viburnum**

Price: \$39.00
 Stock: N/A
 Tags: [☑ Attracts Birds](#), [☑ Fall Foliage](#),
[☑ Native](#), [☑ Pollinator Friendly](#), [☑ Wet Soil](#)

Pot Size: 3 g

Selected at Winterthur Gardens for its superb foliage, stunning maroon-red, with pink-turning-blue berries in fall. Fruit most abundant with seedling pollinator or another cultivar. Native shrub that attracts Lepidoptera as Larval (caterpillar) food source.

**Current Height: 2-3' Mature size: 4-6';
 Light: Sun/Part Sun; Soil: Moist/Wet**

VIBURNUM TRILOBUM

Common Name: American Cranberrybush Viburnum

Pot Size: 2 g

Blooms in spring with white clusters which give way to large drooping red fruits in fall that resemble cranberries. Dark foliage is attractive in summer and turns reddish purple in fall. Berries are edible and sweeten later in the fall. Enjoyed by birds and humans alike. These native plants are excellent supports for wildlife.

VITIS LAMBRUSCA 'CONCORD'

Common Name: Concord Fox Grape

Pot Size: 2 g

Perhaps the most commonly grown grape in residential and commercial settings. 'Concord' is known for its reliability and robust flavor. Clusters of deep blue grapes are produced on vigorous vines in mid-late season making it great for upper mid-Atlantic gardens. Fruit clusters are very fragrant as they ripen. Self-pollinating, this variety is easy to grow and has been in production in the United States since 1843.

Current Height: 1-2' **Mature Size:** 15-20';
Light: Sun/Part Sun; **Soil:** Dry/Moist
