

## ACER GRISEUM

**Common Name:** Paperbark Maple

**Plant Size:** 2 g

A very slow growing, small, oval shaped tree with exquisite peeling copper-brown bark and red fall color. May take 20 years to reach full height. Beautiful blue-green, trifoliate leaves. Insignificant yellowish flowers bloom in April to early May, giving way to winged samaras. A Pennsylvania Horticultural Society Gold Medal winner.

**Current Size:** 3-4'; **Mature size:** 20-35';  
**Light:** Sun/Part Sun; **Soil:** Moist

**Price:** \$39.00

**Stock:** N/A

**Tag:** [☑ Fall Foliage](#)

## ACER SACCHARUM

**Common Name:** Sugar Maple

**Plant Size:** 2 g

Dark green lobed leaves will turn a fantastic blend of yellow-orange in the fall. Important ecological value for several different species of lepidoptera and birds.

**Current Height:** 2-3'; **Mature Size:** 60-75';  
**Light:** Sun/Part Sun; **Soil:** Moist

**Price:** \$29.00

**Stock:** N/A

**Tags:** [☑ Attracts Birds](#), [☑ Fall Foliage](#),

## AESCULUS PAVIA

**Common Name:** Red Buckeye

**Pot Size:** 3 g

Typically a large shrub, red buckeye can mature into a small tree. Panicles of coral-red flowers decorate this shrub as leaves emerge in May and continue for 2-3 weeks as foliage matures. Red flowers attract hummingbirds. Leaves are resistant to diseases that trouble some other buckeyes. Native from Virginia west to Illinois, south to Florida and Texas. PHS Gold Medal Plant Award winner.

**Current Height:** 1-2'; **Mature Size:** 12-15';  
**Light:** Sun/Part Sun; **Soil:** Moist

**Price:** \$39.00

**Stock:** N/A

## AMELANCHIER CANADENSIS

**Common Name:** Shadblow Serviceberry

**Pot Size:** 1 g

This native shrub or small tree should you prefer, offers three seasons of interest. White, fragrant flowers line the branches in early April and give way to dark purple drupes that are revered by wildlife and edible for humans as well. Fall color is a graceful display of showy reds and oranges.

**Current Height:** 2-3'; **Mature size:** 6-20';  
**Light:** Sun/Shade; **Soil:** Moist

**Price:** \$29.00

**Stock:** N/A

**Tags:** [☑ Attracts Birds](#), [☑ Black Walnut Resistant](#), [☑ Drought Tolerant](#), [☑ Fall Foliage](#), [☑ Pollinator Friendly](#), [☑ Staff Favorite](#), [☑ Wet Soil](#), [☑ Edible](#)

## ASIMINA TRILOBA

**Common Name:** Pawpaw

**Pot Size:** 1 g

Native tree with multiple season interest: Maroon flowers adorn naked branches in late March to early April giving rise to banana tasting, custard like edible fruit that ripens in Sept. to Oct. (wait until soft to touch to eat). Will sucker to form a clonal stand. Best to have seedlings to assure fruit set. Fall color is a clear yellow. Larval host for the Zebra Swallowtail butterfly and Pawpaw Sphinx moth.

**Current Height:** 1-2'; **Mature size:** 15-25';  
**Light:** Sun/Shade; **Soil:** Moist

**Price:** \$19.00

**Stock:** N/A

**Tags:** [☑ Black Walnut Resistant](#), [☑ Fall Foliage](#), [☑ Native](#), [☑ Pollinator Friendly](#), [☑ Edible](#)

## BETULA NIGRA

**Common Name:** River Birch

**Pot Size:** 3 g

Deciduous, upright tree with cinnamon brown, exfoliating bark. This species will produce catkins, which are not a traditional flower in the sense of what most people see. A brilliant yellow color makes this tree pop in the fall.

**Current Height:** 3-4'; **Mature size:** 40-60';  
**Light:** Sun/Part Shade; **Soil:** Moist

**Price:** \$39.00

**Stock:** N/A

**Tags:** [☑ Black Walnut Resistant](#), [☑ Fall Foliage](#), [☑ Native](#), [☑ Wet Soil](#)

## CARPINUS CAROLINIANA WISCONSIN RED™

**Common Name:** Musclewood

**Pot Size:** 2 g

Seedling strain developed over many years by Mike Yanny of Johnson's Nursery in Wisconsin for its improved orange-red autumn color. Versatile, tough, widely adaptable small native tree with a dense canopy that tolerates shady understory of woodlands or the poor compacted soils of the urban landscape. Attractive, smooth grey bark; fruits serve as a food source for wildlife.

**Current Height:** 2-4'; **Mature size:** 15-20';  
**Light:** Sun/Shade; **Soil:** Dry/Moist; **Cultivar:**  
 'My Select Strain'

**Price:** \$39.00

**Stock:** N/A

**Tags:** [☑ Attracts Birds](#), [☑ Fall Foliage](#),  
[☑ Native](#)

## CARYA LACINIOSA

**Common Name:** Shellbark Hickory

**Pot Size:** 3 g

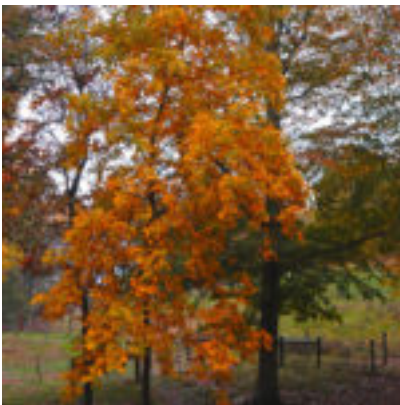

Similar to shagbark hickory, this tree produces thin-shelled, edible fruit that is highly attractive to wildlife and often found on low bottom land in the wild. The bark exfoliates on mature trees and fall foliage is yellow to golden orange. Hickories are very rare in the trade. Hickory horned devil (royal walnut moth) larval food source.

**Current Height:** 6-7' **Mature size:** 60-80';  
**Light:** Sun/Part Sun; **Soil:** Moist

**Price:** \$39.00

**Stock:** N/A

**Tags:** [☑ Attracts Birds](#), [☑ Black Walnut Resistant](#), [☑ Fall Foliage](#), [☑ Native](#), [☑ Pollinator Friendly](#), [☑ Edible](#)

## CARYA OVATA

**Common Name:** Shagbark Hickory

**Pot Size:** 3 g

A large tree with thin-shelled nuts that are very attractive to wildlife. Nuts were important food source for Native Americans and early settlers. Wood is often used to cure/smoke meats. Bark of young trees is gray and smooth; mature plants develop an exfoliating, shaggy bark that makes them distinct from other hickories. The yellow to golden brown fall color brightens the autumn landscape. Hickories are very rare in the trade. Hickory horned devil (royal walnut moth) larval food source.

**Current Height:** 2-3' **Mature size:** 60-80';  
**Light:** Sun; **Soil:** Dry/Moist

**Price:** \$49.00

**Stock:** N/A

**Tags:** [☑ Attracts Birds](#), [☑ Black Walnut Resistant](#), [☑ Fall Foliage](#), [☑ Native](#),

## CERCIS CANADENSIS FLAME THROWER®

**Common Name:** Eastern Redbud

**Pot Size:** 5 g

While the rose-purple flowers on this native tree are notable, the main attraction on this cultivar is the brilliant foliage color. Leaves first emerge as a crimson orange-red, brightening to a gradation of deep oranges, chartreuse and yellow. Plant in full sun as shade will turn the foliage to nearly green.

**Current Height:** 5-6' **Mature size:** 15-20';  
**Light:** Sun/Part Sun; **Soil:** Dry/Moist  
**Cultivar:** 'NC2016-2'

**Price:** \$79.00

**Stock:** N/A

**Tags:** [☑ Black Walnut Resistant](#), [☑ Fall Foliage](#), [☑ Native](#), [☑ Pollinator Friendly](#), [☑ Staff Favorite](#)

## CORNUS ALTERNIFOLIA

**Common Name:** Alternate Leafed Dogwood, Pagoda Dogwood

An underrated native shrub, with creamy-white flowers April-May, blue-black fruit on red stems in late summer which birds relish and rich burgundy fall foliage. Very horizontal branching habit.

**Current Height:** 2-4' **Mature size:** 8-15';  
**Light:** Sun/Part Sun; **Soil:** Moist

Stock Status	Plant Size	Price
	2 Gallon	\$29.00
	3 Gallon	\$39.00

## CORNUS FLORIDA CHEROKEE BRAVE™

**Common Name:** Pink Flowering Dogwood

**Pot Size:** 3 g

This cultivar of our native dogwood is reportedly more drought tolerant than other Florida dogwood varieties. Blooms are a strong reddish pink which fades as flowers mature. Fall foliage is deep classic red and produces bird-attracting fruit. A statement in any garden.

**Current Height:** 3-4' **Mature size:** 15-30';  
**Light:** Sun/Part Sun; **Soil:** Moist **Cultivar:** 'Comco No. 1'

**Price:** \$59.00

**Stock:** N/A

**Tags:** [☑ Clay Soil Tolerant](#), [☑ Attracts Birds](#), [☑ Black Walnut Resistant](#), [☑ Deer Resistant](#), [☑ Drought Tolerant](#), [☑ Fall Foliage](#), [☑ Native](#), [☑ Pollinator Friendly](#)

## CORNUS FLORIDA 'CHEROKEE PRINCESS'

**Common Name:** Flowering Dogwood

**Pot Size:** 3 g

This cultivar of our native dogwood is a vigorous, disease resistant selection which has large white flowers followed by bright red, bird-attracting fruit. Fall color is a nice deep red, a classic and a statement in any garden.

**Current Height:** 4-5' **Mature size:** 20-30';  
**Light:** Sun/Part Sun; **Soil:** Moist

**Price:** \$69.00

**Stock:** N/A

**Tags:** [✖ Attracts Birds](#), [✖ Black Walnut Resistant](#), [✖ Deer Resistant](#), [✖ Fall Foliage](#), [✖ Native](#), [✖ Pollinator Friendly](#)

## CORNUS VENUS®

**Common Name:** Chinese Dogwood

**Pot Size:** 7 g

Hybrid dogwood (*Cornus kousa* 'Chinensis' x *C. nuttallii* 'Goldspot' x *C. kousa* 'Rosea') developed by Rutgers plant breeder Elwin R. Orton as part of the Jersey Star series of dogwoods. Vigorous habit, large white bracted flowers, profuse bloom and resistance to anthracnose and powdery mildew are its standout characteristics. Small deciduous tree blooming April to May, with strawberry-like fruit during fall.

**Current Height:** 6-7' **Mature size:** 14-18';  
**Light:** Sun/Part Sun; **Soil:** Moist **Cultivar:** 'Kn30-8'

**Price:** \$99.00

**Stock:** N/A

**Tags:** [✖ Attracts Birds](#), [✖ Black Walnut Resistant](#), [✖ Deer Resistant](#), [✖ Fall Foliage](#)

## DIOSPYROS VIRGINIANA

**Common Name:** Persimmon

**Pot Size:** 3 g

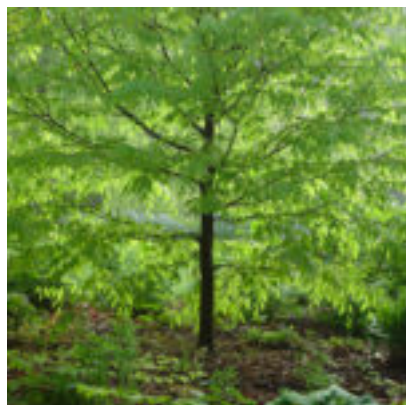

Beautiful, mid-sized native tree typically found growing along roadsides and in open woodland settings. The blocky bark covers the ebony colored wood, once used for golf clubs. Both male and female plants produce small white flowers in early summer; however, only the females produce the 1-2" apricot-colored, edible fruit. Flowers appear early summer are prized by pollinators. Luna moth larval food source. Fall foliage is purplish-red. These are female plants.

**Current Height:** 5-6' **Mature size:** 35-60';  
**Light:** Sun/Shade; **Soil:** Moist

**Price:** \$39.00

**Stock:** N/A

**Tags:** [✖ Black Walnut Resistant](#), [✖ Fall Foliage](#), [✖ Native](#), [✖ Pollinator Friendly](#), [✖ Edible](#)

## FAGUS GRANDIFOLIA

**Common Name:** American Beech

**Pot Size:** 2 g

One of the most common and aristocratic native trees in our regional woodlands, yet nearly impossible to purchase or find in the trade. Lepidoptera use plant as larval (caterpillar) food source; a host for insects, and many birds and mammals feed on beechnuts. Images show lime green spring foliage and chestnut fall color as backdrop for witchhazel.

**Current Height:** 2-3' **Mature size:** 50-60';  
**Light:** Sun/Part Sun; **Soil:** Moist

**Price:** \$29.00

**Stock:** N/A

**Tags:** [☒ Attracts Birds](#), [☒ Black Walnut Resistant](#), [☒ Fall Foliage](#), [☒ Native](#), [☒ Pollinator Friendly](#)

## HALESIA TETRAPTERA

**Common Name:** Carolina Silverbell

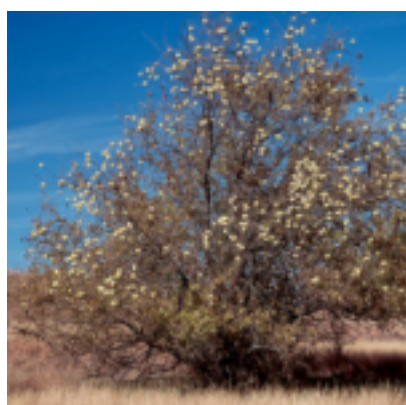

**Pot Size:** 3 g

Clustered white bell shaped flowers adorn this small native tree in mid-spring. Can be pruned to single or multi-trunk with low ascending branches. Fantastic display when placed against an evergreen background.

**Current Size:** 5-6' **Mature size:** 30-40';  
**Light:** Sun/Part Sun; **Soil:** Moist

**Price:** \$49.00

**Stock:** N/A

## MACLURA POMIFERA

**Common Name:** Osage Orange

**Pot Size:** 2 g

Deciduous tree native to south eastern region of North America. A familiar sight in hedgerows and along old country roads, this tree was readily used to exclude livestock before the invention of barbed wire. Easily recognized in fall when the plant produces softball sized greenish-yellow fruit.

**Current Height:** 2-3' **Mature size:** slow growing to 35'; **Light:** Sun/Part Sun; **Soil:** Moist

**Price:** \$29.00

**Stock:** N/A

**Tags:** [☒ Clay Soil Tolerant](#), [☒ Drought Tolerant](#), [☒ Fall Foliage](#), [☒ Native](#)

## MAGNOLIA MACROPHYLLA

**Common Name:** Bigleaf Magnolia

**Pot Size:** 3 g

This native Magnolia produces massive leaves that stand out in the forest understory (the largest leaf of any plant endemic to North America). Creamy white fragrant flowers flecked with pink in the center match the foliage in size. A breeze shows the gorgeous white underside of the leaves.

**Current size:** 5' **Mature size:** 30-40'; **Light:** Sun/Part Sun; **Soil:** Moist

**Price:** \$69.00

**Stock:** N/A

**Tags:** [☒ Native](#), [☒ Fragrant](#)

## MAGNOLIA MACROPHYLLA VAR. ASHEI

**Common Name:** Ashe Magnolia

**Pot Size:** 3 g

Similar to the straight species in all but stature. Produces massive leaves that stand out in the forest understory (the largest leaf of any plant endemic to North America) lending a tropical feel to the landscape. Creamy white fragrant flowers flecked with pink in the center match the foliage in size. A breeze shows the gorgeous white underside of the leaves.

**Current size:** 2-3' **Mature size:** 15-20';  
**Light:** Sun/Part Sun; **Soil:** Moist

**Price:** \$69.00

**Stock:** N/A

**Tags:** [☒ Native](#), [☒ Staff Favorite](#),  
[☒ Fragrant](#)

## MAGNOLIA TRIPETALA

**Common Name:** Umbrella Tree

**Pot Size:** 3 g

This native Magnolia sports massive 1-2' leaves lining the ends of this often multi-trunked tree. Bowl shaped, creamy white flowers emerge in spring and give way to cone like pink fruits which will ripen in the fall.

**Current size:** 2-3' **Mature size:** 15-30';  
**Light:** Sun/Part Sun; **Soil:** Moist

**Price:** \$69.00

**Stock:** Out of stock

**Tags:** [☒ Native](#), [☒ Fragrant](#)

## MAGNOLIA VIRGINIANA

**Common Name:** Sweetbay Magnolia

**Pot Size:** 3 g

One of the best small native trees for multi-season interest: fragrant, chalice-shaped white flowers in summer; red fruits, and attractive leaves with glaucous undersides in fall. Doesn't create dense shade.

**Current Height:** 5-6' **Mature size:** 25'; **Light:** Sun/Part Sun; **Soil:** Moist/Wet

**Price:** \$39.00

**Stock:** Out of stock

**Tags:** [☒ Native](#), [☒ Wet Soil](#), [☒ Fragrant](#)

## PLATANUS OCCIDENTALIS

**Common Name:** Sycamore

**Pot Size:** 3 g

This fast growing native tree can reach truly majestic heights. Noted for its rounded habit at maturity with a mottled and exfoliating bark, this tree can be the focal point in the garden, and with proper placement, will create nice shade.

**Current Height:** 5-6' **Mature size:** 60-90'; **Light:** Sun; **Soil:** Moist/Wet

**Price:** \$49.00

**Stock:** N/A

**Tags:** [☒ Black Walnut Resistant](#), [☒ Native](#), [☒ Wet Soil](#)

## PRUNUS VIRGINIANA

**Common Name:** Chokeberry

**Pot Size:** 2 g

Long clusters of fragrant white flowers begin in April and last through early May to produce a gorgeous display. Later producing showy and edible deep red fruits in clusters. This plant attracts and is eaten by a large variety of flora and fauna so be aware they will likely get munched by your wildlife.

**Current Height:** 2-3' **Mature size:** 20-30'; **Light:** Sun/Part Sun; **Soil:** Dry/Moist

**Price:** \$29.00

**Stock:** N/A

**Tags:** [☒ Attracts Birds](#), [☒ Pollinator Friendly](#), [☒ Edible](#)

## QUERCUS ACUTISSIMA

**Common Name:** Sawtooth Oak

**Pot Size:** 3 g

A medium sized tree in relative to the rest of the genus, sawtooth oak grows to a broad pyramidal shape and as the plant matures, becomes more oval-like. Acorns are produced once the plant has reached roughly 10 years old and are plentiful. It's fast growing and extremely heat tolerant.

**Current Height:** 7-8' **Mature size:** 50-75';  
**Light:** Sun; **Soil:** Moist

**Price:** \$39.00

**Stock:** N/A

**Tags:** [☒ Black Walnut Resistant](#), [☒ Drought Tolerant](#), [☒ Fall Foliage](#), [☒ Salt Tolerant](#)

## QUERCUS BICOLOR

**Common Name:** Swamp White Oak

**Pot Size:** 3 g

True to its name, this native oak is found in low areas and floodplains; ideal for heavy soils or where water tends to sit. Acorn production is sporadic. Leaves don't have deeply cut lobes; fall color is golden-brown to russet-red. Lepidoptera use plant as larval (caterpillar) food source. Birds utilize plant as a food source and for nest building material. Wood is used for furniture, cabinets, veneers, flooring, fence posts, beams, boards and more.

**Current Height:** 3-4' **Mature size:** 50-80';  
**Light:** Sun; **Soil:** Moist/Wet

**Price:** \$49.00

**Stock:** N/A

**Tags:** [☒ Attracts Birds](#), [☒ Black Walnut Resistant](#), [☒ Drought Tolerant](#), [☒ Fall Foliage](#), [☒ Native](#), [☒ Pollinator Friendly](#), [☒ Salt Tolerant](#), [☒ Wet Soil](#)

## QUERCUS NIGRA

**Common Name:** Water Oak

**Pot Size:** 3 g

Deciduous in this area, water oaks sport thick, leathery, wedge shaped, lobed leaves that tend to be smaller than leaves of other species in this genus. Foliage yellow in fall.

**Current Height:** 6-7' **Mature size:** 60'; **Light:** Sun; **Soil:** Moist/Wet

**Price:** \$39.00

**Stock:** N/A

**Tags:** [☒ Black Walnut Resistant](#), [☒ Drought Tolerant](#), [☒ Fall Foliage](#), [☒ Native](#), [☒ Salt Tolerant](#), [☒ Wet Soil](#)

## QUERCUS PALUSTRIS

**Common Name:** Pin Oak, Swamp Spanish Oak

**Pot Size:** 2 g

Straight-trunked, graceful native oak tree with spreading to horizontal branches and a strongly pyramidal habit. Dark green foliage turns dark red in fall. Tolerates heavy, poorly drained soils. Oaks are the most valuable genus for Lepidoptera use as larval (caterpillar) food source. Attracts songbirds, ground birds and mammals. Native.

**Current Height:** 3-4' **Mature size:** 60-70';  
**Light:** Sun/Shade; **Soil:** Moist/Wet

**Price:** \$29.00

**Stock:** N/A

**Tags:** [☑ Attracts Birds](#), [☑ Black Walnut Resistant](#), [☑ Drought Tolerant](#), [☑ Fall Foliage](#), [☑ Native](#), [☑ Pollinator Friendly](#), [☑ Salt Tolerant](#), [☑ Wet Soil](#)

## QUERCUS RUBRA

**Common Name:** Northern Red Oak

**Pot Size:** 3 g

Due to its wealth of different values for wildlife of all varieties, this native oak is a quick grower amongst the group, growing at upwards of 24+ inches a year in its youth. Bristle tipped leaves turn red in fall and can sport 6-12 lobes per leaf.

**Current Height:** 4-5' **Mature size:** 60-75';  
**Light:** Sun; **Soil:** Moist

**Price:** \$49.00

**Stock:** N/A

**Tags:** [☑ Attracts Birds](#), [☑ Black Walnut Resistant](#), [☑ Drought Tolerant](#), [☑ Fall Foliage](#), [☑ Native](#), [☑ Pollinator Friendly](#), [☑ Salt Tolerant](#)

## STEWARTIA PSEUDOCAMELLIA

**Common Name:** Japanese Stewartia

**Pot Size:** 2 g

A large Stewartia with a mosaic of green-grey-orange-brown bark. 2-2.5" flowers open in June. In fall, leaves turn yellow, fiery red, or reddish purplish. Multi-seasonal interest on a small tree.

**Current Height:** 2-3' **Mature size:** 12-15';  
**Light:** Sun/Part Sun; **Soil:** Moist

**Price:** \$39.00

**Stock:** N/A

**Tags:** [☑ Fall Foliage](#), [☑ Staff Favorite](#)

## STYRAX JAPONICUS

**Common Name:** Japanese Snowbell

**Pot Size:** 3 g

Fragrant, bell-shaped white flowers in spring. Pollinators love to buzz this small tree.

**Current Height:** 4-5' **Mature size:** 15-25';  
**Light:** Sun/Part Sun; **Soil:** Moist

## TILIA AMERICANA

**Common Name:** American Basswood,  
American Linden

**Pot Size:** 3 g

Native tree useful as a shade tree in the Mallow family. Tolerant of clay soil and drought once established. *Tilia* is host for many Lepidoptera larva, such as Tiger swallowtail, Promethea moth, royal walnut moth, red-spotted purple and white-marked tussock moth. Seeds are eaten by birds and it's a good pollinator tree. Honey made from nectar is prized. Pale yellow fall color.

**Current Height:** 4-6' **Mature size:** 50-80';  
**Light:** Sun/Part Shade; **Soil:** Dry/Moist

**Price:** \$49.00

**Stock:** N/A

**Tags:** [☒ Clay Soil Tolerant](#), [☒ Attracts Birds](#), [☒ Fall Foliage](#), [☒ Native](#), [☒ Pollinator Friendly](#)
